

Sinclair Broadcasting's decision to air this outrageously biased, one-sided program, "Stolen Honor", is Exhibit A in the case for the suspension of their broadcast licenses. This kind of abuse of power is exactly what the FCC should be protecting us from, and a horrific example of the wrong-headed policies that have allowed more media concentration. I can't think of a more terrifying example of why the FCC must reverse course, and re-regulate broadcast media. As a professional journalist for 10 years, this kind of behaviour is simply beyond the pale to me, and flies in the face of every ethical standard I have worked to uphold. The FCC must act to stop this kind of abuse!
